

# Ido Gal

KFAR HESS, ISRAEL • +972 54 785-3854 • [gido71200@gmail.com](mailto:gido71200@gmail.com) • [www.linkedin.com/in/ido-gal1/](https://www.linkedin.com/in/ido-gal1/)

Software Engineer and Israeli former national swimmer with strong technical, problem-solving, and leadership skills seeking a software engineering role

## PROFESSIONAL EXPERIENCE

---

### Software Engineer | Datirium LLC

Jan 2024 – Aug 2024; May 2025 – Present

- Led end-to-end data migration from MongoDB to Firestore, designing migration scripts and validating data integrity to support a production-bound platform
- Developed a fully responsive web platform using Angular and TypeScript, enhancing user experience and performance on multiple devices
- Built a PM2 wrapper to automate platform-to-computer communication, improving efficiency and reducing manual workload
- Collaborated with cross-functional teams following Agile methodologies, utilizing Git for version control
- Built satellite interaction workflows (Bash/JavaScript), implemented real-time Firestore updates, and maintained Jenkins-based CI/CD pipelines with unit and end-to-end testing

### Army Service, Special Education Teacher | IDF Israel

Aug 2019 – Apr 2022

- Served in the IDF for three years, successfully completing two months of basic training
- Taught mathematics and physics to special-needs youth, fostering patience, clear communication, and leadership skills
- Designed and implemented tailored educational programs, enhancing student engagement

## EDUCATION

---

**University of Cincinnati** — Bachelor of Science in Computer Science

Minor: Mathematics

GPA: 3.98 / 4.00

Awards & Honors: Charles Somogyi Scholarship (2023) • Dean's List (2022–Present) • CEAS International Outreach Participant

## PROJECTS

---

### Mentori | React, TypeScript, Node.js, MongoDB

- Built and deployed an AI-powered full-stack tutoring platform serving 200+ active users in production
- Designed scalable REST APIs and MongoDB data models to support real-time interactions

### Bank Infrastructure | C++

- Developed a C++ banking system using OOP principles, data structures, and file-based persistence
- Implemented transaction processing with validation, error handling, and modular system design

## SKILLS

---

**Programming:** Python, C++, C#, JavaScript, TypeScript

**Frontend:** React, Angular, HTML, CSS

**Backend & Databases:** Node.js, Express, NestJS, MongoDB, Firebase

**Tools & DevOps:** Git, PM2, Jenkins, Bash, Linux, macOS

## ATHLETICS | Israeli National Swimmer

---

- Represented Israel in European and World Championships at the international elite level
- Balanced 20+ hours/week of training and competition alongside a full academic course load
